

CETAL Workshop

We have the pleasure of inviting you on Tuesday, August 22nd, 11.00 am, to the CETAL Workshop which will take place in the Seminar room from Center of Advanced Laser Technology (CETAL) at National Institute of Laser Plasma and Radiation Physics.

Dr. Razvan Stoian, from Laboratoire Hubert Curien, CNRS, Université Jean Monnet, 42000 St-Etienne, France, will contribute with an invited talk on "**Nanostructuring of materials for photonics with designer ultrafast laser pulses**".

Dr. Camelia Ghimbeu from Institut des Sciences de Materiaux de Mulhouse (IS2M), France, will contribute with an invited talk on "**Carbon materials for post Li-ion batteries: Na- and K-ions batteries**".

Workshop program will be available on the association site.

Location:
Seminar Room 1st floor,
Center for Advanced Laser Technology –
CETAL
National Institute for Laser Plasma and
Radiation Physics
Atomistilor 409, Magurele,
Ilfov 077125, Romania
