

## CETAL Presentation

- Simultaneous quantum imaging and spectroscopy with undetected photons -

**Laurentiu Dosan - Friedrich Schiller University - Jena**

**Abstract:** We report a scheme for simultaneous quantum imaging and spectroscopy with undetected photons for low-cost IR sensing. Using curved mirrors and SPDC spatial filtering, we improve fiber-coupled visibility and minimize optical aberrations and system dimensions.

**Location:**  
Seminar Room 1<sup>st</sup> floor,  
Center for Advanced Laser Technology – CETAL  
National Institute for Laser Plasma and  
Radiation Physics  
Atomistilor 409, Magurele,  
Ilfov 077125, Romania
